

Customer Company _____ Address _____ City _____ Postal/Zip code _____ Country _____ Phone _____ Contact name _____ E-Mail _____	Vehicle Manufacturer _____ Model _____ Engine model / HP _____ Machine serial number _____ Emission stage _____ Engine speed [max. rpm] _____ Fan speed [max. rpm] _____ Electric system <input type="checkbox"/> 12V <input type="checkbox"/> 24V Compressed air system <input type="checkbox"/> Yes <input type="checkbox"/> No Hydraulic available <input type="checkbox"/> Yes <input type="checkbox"/> No Pilot pressure [bar] _____ (max. 50 bar) Working pressure [bar] _____ (max. 250 bar) Fan rotation direction * <input type="checkbox"/> Clockwise <input type="checkbox"/> Counter clockwise <input type="checkbox"/> Sucking <input type="checkbox"/> Blowing Fan type _____ Type of fan drive ** _____ Number of blades _____
Notes _____ _____ _____	

Measurements of existing installation

	<input type="checkbox"/> mm	<input type="checkbox"/> inch
A Distance between radiator and fan mounting surface	_____	
B1 Distance between radiator and closest obstacle on the motor side	_____	
B2 Distance between fan axis and closest obstacle on the motor side	_____	
C Depth of shroud	_____	
D Fan diameter	_____	
E1 Distance between radiator and closest obstacle on the radiator side	_____	
E2 Distance between fan axis and closest obstacle on the radiator side	_____	
S Tip clearance of fan	_____	

Fan drive dimensions

Cone shaft / Cylindrical shaft

I Shaft thread size _____
 Y Taper length _____
 X1:X2 Taper ratio _____
 X1, X2 Shaft diameter _____
 W Key Width _____ Length _____
 Depth _____

Bolt circle

AD Pilot diameter _____
 LK Bolt circle diameter _____
 SD Bolt hole diameter _____
 Bolt quantity _____
 X1, X2 Distance _____
 X1 _____ X2 _____

* Looking through fan towards fan drive, ** Hydraulic drive, Electric drive, etc.
