

Working in two very special parts of the world

We are proud of our global hometowns – and were honoured when they came together in celebration! Dan Mathieson, Mayor of Stratford, Kanada, makes official his entourage's visit to Schorndorf, Germany, where they met with Mayor Matthias Klopfer and his team.

We have the great privilege of working in two wonderful communities in two very special parts of the world! And the two came together recently, when our global base in Schorndorf, Germany, was visited by a special official entourage from our North American home of Stratford, Ontario. Stratford Mayor Dan Mathieson was joined by Joani Gerber of investStratford and Angela Spreng from the Consulate of Canada in Munich.

We were honoured to have lunch together with Schorndorf Mayor Matthias Klopfer and his team – truly celebrating and toasting the investment of Cleanfix in two world-class cities. Shown here, Stratford Mayor Mathieson puts pen to paper and makes the visit official!

The entire global Cleanfix team sincerely thanks our hometowns of Schorndorf, Germany, and Stratford, Ontario, for the being such tremendous partners.
