Dimension Sheet Truck

Customer

Company _____
Address _____
City _____
Postal/Zip code _____
Country _____
Phone _____
Contact name _____
E-Mail _____

Notes

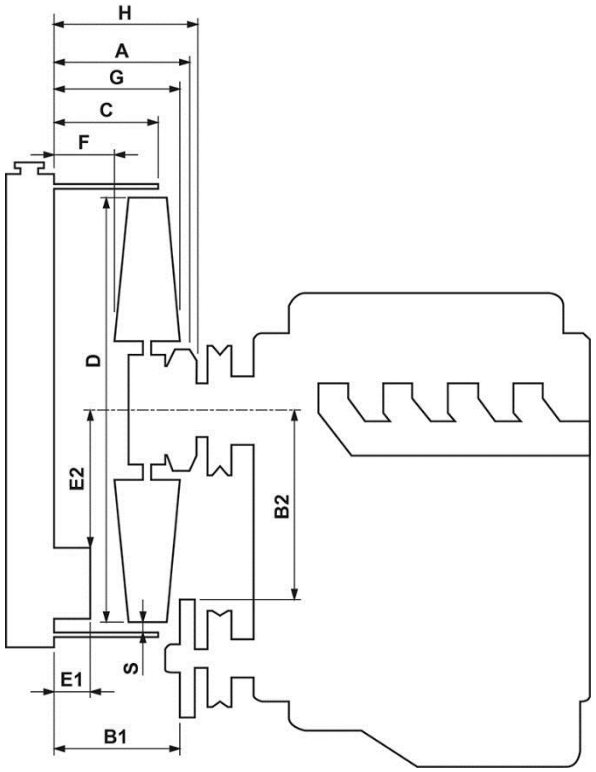
Vehicle

Manufacturer / Make _____
Model _____
Engine model / HP _____
Machine serial number _____
Emission stage _____
Engine speed [max. rpm] _____
Fan speed [max. rpm] _____

Electric system ☐ 12V ☐ 24V
Compressed air system ☐ Yes ☐ No
Rotational direction* ☐ Clockwise ☐ Counter clockwise
Type ☐ suction ☐ blower
Type of fan drive** _____
Number of blades _____
Clutch Manufacturer _____
Clutch Part Number _____

Measurements of existing installation ☐ mm ☐ inch

A	Distance between radiator to fan mounting surface	_____
B1	Distance between radiator and closest object / obstacle to the back of the blades	_____
B2	Distance from fan axis (axial middle line) to closest object / obstacle to the back of the blades	_____
C	Depth of shroud	_____
D	Original fan diameter	_____
E1	Distance between object / obstacle on the radiator to the front of the blades	_____
E2	Distance from fan axis (axial middle line) to closest object / obstacle to the front of the blades	_____
F	Distance from radiator to the front of the original fan blades	_____
G	Distance from radiator to the rear side of the original fan blades	_____
H***	Radiator to clutch mounting surface 'if clutch can be removed'	_____
S	Tip clearance original fan	_____



Fan drive dimensions

Bolt circle

	Pilot Type	☐ male ☐ female
AD	Pilot Diameter	_____
LK	Bolt circle diameter	_____
SD	Bolt hole diameter	_____
	Bolt quantity	_____

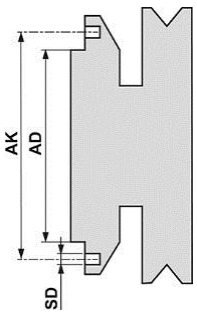


Fig. 1: male

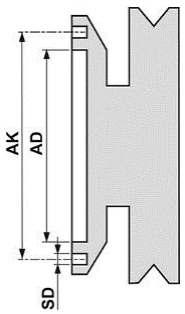

Fig. 2: female

***** looking through fan towards fan drive ** Belt drive, Crankshaft drive, etc. *******only for clutch
